

WHY BRIDGELINE?

Bridgeline's Unbound platform is a **cloud-based solution** that enables marketers to **bridge the gaps** between content, commerce, marketing, insights, and social.

Proven Solutions

Get started right away with turnkey solutions that can be **rapidly tailored to your brand and business requirements**, providing you with velocity to market.

Unique Flexible Framework

We bring your designs to life using unique and customizable drag and drop templates so you can **edit content without coding**. Effectively create and manage websites, mobile sites, landing pages, forms and more.

Scalable Platform

Our comprehensive suite of products with enterprise-level integrations **supports businesses as they grow** while facilitating exceptional experiences that attract, engage, nurture and convert.

Certified Secure Environment

Safeguard your business and protect customers worldwide with a certified secure environment for eCommerce transactions including **GDPR Compliancy, PCI Level One Security Certification and SOC2 Certification**.

Amazon Web Services (AWS) Cloud Hosting Services

Want painless site upgrades and seamless integration with existing data and systems? We provide this through cloud hosting services that leverage AWS, **included with our standard license**. Did we mention we also take care of your site's infrastructure, software, security, compliance, maintenance, performance and capacity management?

Professional Services

We partner with customers to provide successful solutions that deliver real results. Our team of professionals is standing by to provide **digital expertise** and a **roadmap to success**. Learn more at www.bridgeline.com/services.

POWERING DIGITAL EXPERIENCES FOR SOME OF THE WORLD'S LARGEST BRANDS
